

Theatre Consultants Collaborative

Casper College Music Building Casper, Wyoming

Casper College's new music building resolves the physical and acoustical issues that plagued the music program in its former quarters. In addition to the 417-seat concert hall, there is an array of acoustically-tuned rehearsal

spaces, a chorale practice and performance space, a state-of-the-art recording studio, classrooms and a visual arts gallery. The building serves as the centerpiece of what is now the fine arts district on campus.

SERVICES

Theatre planning, auditorium design, and theatre equipment design and specification, i.e. performance lighting, rigging, orchestra shell and drapery systems
